Deputy Assistant Director, OSI

27 July 1949

Chief, ICAPS

Excerpt from Minutes of IAC Meeting - 22 July 1949

GEN. TODD: The Joint Nuclear Energy Committee in the last 60 days have come up with a new estimate, and for that to be of any value to us on a joint basis, it would help a lot if that were formally submitted to and approved or amended by the IAC, to replace our old agreed estimates, which is actually a formal agreement of the IAC. It is a more detailed estimate and it would certainly fit our purpose on the long-range estimates and long-range planning.

DIRECTOR: Is that a six months' estimate?

GEN. TODD: It is dated June 29.

DIRECTOR: We will pass that around to get a formal agreement.

GEN. CABELL: Why not make that SOP? It would be referred to the IAC for formal action.

DIRECTOR: Yes.
